Special: \$1,706 - Save \$141.00!

MIL-STD-810H durability rating, EPEAT Gold Energy Star, backlit keyboard, four upward-facing speakers

Good/Better/Best?	Although they are all durable, high quality laptops, Acer TravelMates come in three tiers: TMP214/215/216 – the base model. Fast and reliable, it has a plastic chassis. TMP414/415/416 – these have a magnesium allow chassis for increased strength and a MILSpec rating. TMP614/615/616 – the top of the line model – with an ultra light magnesium allow chassis for less weight.
What is IPS?	IPS (In-Plane Switching) screens give better colour and viewing angles than TFT screens.
Why HDMI?	HDMI ports allow you to connect your laptop to a big screen TV or projector with just one cable.
Why USB 3.0?	USB 3.0 has the same connection as the older USB 2.0 and 1.1 that we're used to, and older USB devices work fine in USB 3.0 ports, but plug a USB 3.0 device in a USB 3.0 port and watch those files fly - USB 3.0 (4800Mbps) can transfer files almost 10 times faster than USB 2.0 (480Mbps.)
MIL-STD-810?	This is a military spec that requires the laptop to pass various tests for shock (being dropped two feet to a hard surface), vibration, and exposure to dust, humidity and extreme temperatures.

**Speedmark shows performance of CPU for business tasks - 1000 is the bare minimum for business tasks.*

Laptop prices include Windows 10 installation, configuration, optimization plus full year of anti-virus and ad blocker.

Upgrade to 3 year warranty on any Travelmate: \$120.80

Upgrade to 3 Year Total Protection on any Travelmate: \$296.50

Extended warranties must be purchased within 15 days from the invoice date for the laptop.
